Recommended Citation
Tajik AJ. Inherited cardiomyopathies & genetics. Presented at Milwaukee Heart Failure Symposium, May 5, 2018, Milwaukee, WI.

This Oral/Podium Presentation is brought to you for free and open access by the Aurora UW Faculty at Aurora Health Care Digital Repository. It has been accepted for inclusion in Aurora UW Cardiology Faculty by an authorized administrator of Aurora Health Care Digital Repository. For more information, please contact ewindchy@bepress.com.
Purpose
Heart failure is the progressive stage of most cardiac illness. This symposium will present up-to-date knowledge to help clinicians and allied health providers identify, evaluate and treat heart failure and related conditions.

Audience
This symposium will be of value to Cardiovascular Surgeons, Cardiologists, Internists, Hospital Medicine, Family Practice, mid-level providers, allied health professionals and subspecialty trainees. It will also be of interest to Internal Medicine, Hospital Medicine, Family Practice, mid-level providers, allied health professionals and subspecialty trainees.

Objectives
All the aims of this course should be better attained to:
- Encourage application of primary and secondary preventive measures to reduce the incidence, prevalence and the economic burden of heart failure
- Know the most current evidence-based diagnostic & therapeutic strategies in heart failure & pulmonary hypertension
- Highlight innovation in the field of advanced heart failure
- Understand prognosis and outcomes of various treatment strategies employed in managing heart failure

About Milwaukee
Milwaukee is the largest city in the state of Wisconsin. Well known for its brewing traditions, Milwaukee is experiencing its largest construction boom since the 1960s. Major new additions to the city in the past two decades include the Milwaukee Art Museum, the Milwaukee Repertory Theater. The Wisconsin Entertainment and Sports Center is scheduled to open in 2018. Most of these sights are within walking distance to the symposium.
